# Advanced Laparoscopic Foregut Symposium: Austin

## February 21-22, 2019

### Program host

Janey Whisenant  
512.921.3975

### Intended audience

An interactive symposium designed for surgeons involved in hiatal/PEH repairs.

### Course description

The purpose of this educational program is to facilitate discussion on successful solutions for managing laparoscopic hiatal hernia repair and to understand the proper use of mesh materials. Discussion will include review of past and current techniques for hiatal hernia repair, clinical data, and science and technology of products.

From the operating room, surgeons will see live cases performed.

### Educational objectives

- Review current literature for hernia repair techniques, materials and patient management strategies
- Gain new insights into advanced surgical techniques for hiatal/PEH repair
- Demonstrate use of BD products in hernia repair

In accordance with the AdvaMed Code of Ethics, this program is limited to Healthcare Professionals only who have a bona fide interest in the presentation topic. We are prohibited by state law from providing meals to Healthcare Professionals licensed in the state of VT.

Please consult product labels and inserts for any indications, contraindications, hazards, warnings, precautions and instructions for use.
