# Comprehensive Abdominal Wall Reconstruction Symposium: Lexington

## February 10-11, 2019

### Program host

John Kitchen  
606.424.1965

### Intended audience

An interactive symposium designed for general, trauma, and plastic surgeons involved in complex abdominal wall reconstruction.

### Course description

The purpose of the educational event is to facilitate discussion on successful solutions for managing complex abdominal wall repair (AWR), laparoscopic ventral hernia repair, and to understand the proper use of Ventralight™ ST Mesh w/ Echo™, Phasix™ Mesh and Phasix ST™ Mesh. Discussion will include review of preclinical and clinical data, science and technology of products, economics of AWR, and various techniques for the reconstruction of the abdominal wall and laparoscopic ventral hernia repairs.

From the conference room, surgeons will observe recorded cases. The faculty will moderate and host Q&A throughout the cases to enhance the educational experience. Surgeons will then have the opportunity to participate in a hands-on animal lab under the direct supervision of faculty.

### Educational objectives

- Review current literature for hernia repair techniques, materials and patient management strategies
- Gain new insights into advanced surgical techniques for complex abdominal wall repair and laparoscopic ventral hernia repair
- Demonstrate use of BD products in hernia repair

In accordance with the AdvaMed Code of Ethics, this program is limited to Healthcare Professionals only who have a bona fide interest in the presentation topic. We are prohibited by state law from providing meals to Healthcare Professionals licensed in the state of VT.
